LIBRARIAN RESIGNS

At a recent meeting of the library board of East Chicago, Mrs. Frances Byers tendered her resignation as city librarian to take effect January 1 in order that she may attend Columbia University where she expects to take some advanced library work. The board, however, asked that she reconsider her resignation promising that she would be given a six months leave of absence instead. She has not yet reached a decision, but it is thought that her resignation will be withdrawn.

Mrs. Byers has been an important factor in the development of the public library system of the city and the library board is averse to see her depart from the city.

CARUSO QUARTET TONIGHT

The Caruso Male Quartet will be one of the big features at the big republican rally which will be held at the East Chicago Masonic Temple this evening. City Chairman J. W. Brissey has secured the services of the quartet and promises that they will help greatly in making the meeting worth while.

CATCH AUTO THIEVES

The East Chicago police made another good catch this morning when they caught two negroes, Roman Mitchell and Montgomery Lewis, who had stolen the Marlon-Handley car of John Sako of Indiana Harbor and were on their way to Chicago. The police were tipped off by C. J. York, chief of the General American Tank Car police, who saw the negroes near the Baldwin Locomotive company site and the arrests followed.

Mitchell, who has been in the East Chicago city court upon two previous occasions, claims residence at Gibson and Lewis has been living on Pennsylvania avenue, Indiana Harbor.

NEGRO MOONSHINERS

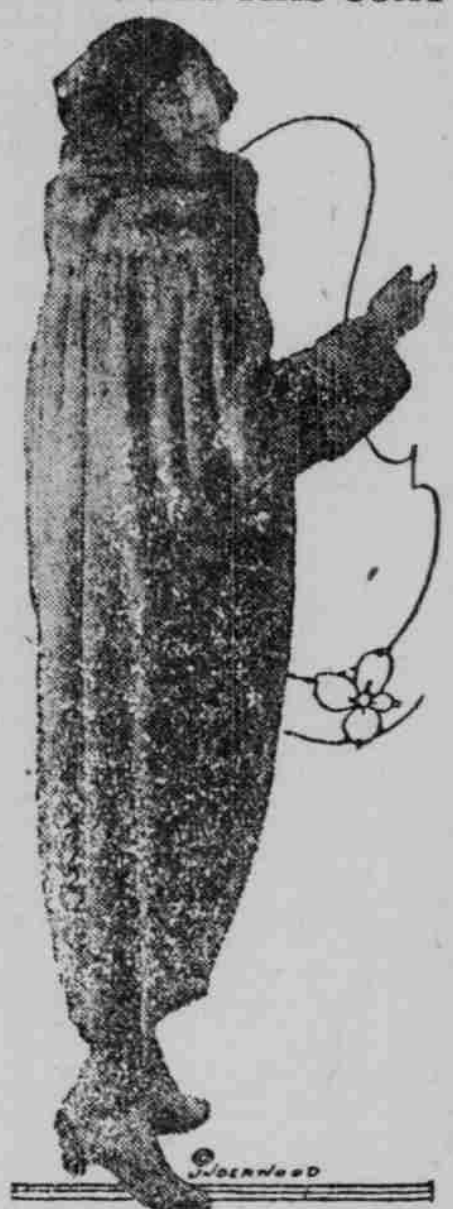

The first negro moonshiners of Indiana Harbor were arrested last night when the Harbor police walked in upon James Harris and Jimmy Keys at 2655 Block avenue where a small still was in operation. The usual amount of raisin mash was found and there was also a small amount of the white "kick."

"Why don't you arrest Nick Bradne too?" To be accommodating the police then walked down to Nick's place at 3093 Block avenue and arrested Nick and John Sanders. The latter, who are Roumanians, had an excellent copper still while the negroes outfit was of mediocre workmanship.

Says Chemist is Public Benefactor

"Being a doctor, and suffering for many years with stomach trouble, I feel I cannot do justice to so great a public benefactor in writing. May's Wonderful Remedy is everything you have claimed for it. I can now eat and relish victuals I have not dared to eat in many years. Am feeling like newly born." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. All Druggists.—Adv.

WORKERS PLANNING STEP THEY BELIEVE WILL PREVENT WAR

By MILORDED MOTORS

[STAFF CORRESPONDENT I. N. SERVICE] WASHINGTON, Oct. 14.—American workers in the armaments, munition plants and navy yards are preparing to make what is declared to be the first practical move to end war.

The International Machine's association, one of the most powerful labor organizations in the U. S. with a membership of 250,000, and control over all the organized machinists employed in the manufacture of munitions and naval vessels, will take initial steps within a month to call a conference of metal workers of the world for concerted action on a program to bring about the world's disarmament.

This announcement, coming today from Wm. H. Johnston, head of the organization, produced a sensation in official labor circles. The move, it was pointed out, is the most radical departure from the policies of organized labor in America taken in years and assumed special importance because it comes from the third largest union in the American Federation of Labor. Next to the miners it is regarded as the most powerful body affiliated with the federation. Also it constitutes, in effect, a repudiation of Samuel Gompers' stand on European labor.

The machinists organization at its recent convention in Rochester, N. Y., declared for the recognition of Soviet Russia.

Marine Corps Recruiting Shows Substantial Gain

WASHINGTON, Oct. 14.—Recruiting for the marine corps has made a remarkable gain since July, when 326 recruits were enlisted. A substantial increase was recorded for August, when the total accepted applicants numbered 1335, and in September the total rose to 1686, more than doubling the figures for July. Early returns for October show a still greater increase, and it is expected that the final figures for the current month will far exceed the Sept.

ember total. Enlistment figures in recent months have been increased by large numbers of former marines who are returning to the service.

nature provides for the loss in man power after a great war by producing more boys than girls babies is borne out in Paris statistics.
